### Market Surveillance Summary

| No | Category            | Region   | Total No. of Batch | No. of Non-Compliant Batch | Rate of Compliance | Non-Compliant Parameter(s)  |
|----|---------------------|----------|--------------------|----------------------------|--------------------|---|
| 1  | Sport shoes         | Shanghai | 35                 | 2                          | 94.3%              | Formaldehyde, flexing resistance  |
| 2  | Bags                | Shanghai | 39                 | 16                         | 59.0%              | Shaking impact, stitching strength  |
| 3  | Leather sandals     | Shanghai | 50                 | 8                          | 84.0%              | Pull off strength of upper, colorfastness to rubbing for insock lining, appearance, shank, flexing resistance, peeling strength |
|    |                     | Zhejiang | 14                 | 3                          | 78.6%              | Labeling  |
|    |                     | Jiangsu  | 83                 | 13                         | 84.3%              | Peeling strength, shank, abrasion resistance  |
| 4  | Athletic shoes      | Shanghai | 50                 | 1                          | 98.0%              | Abrasion resistance   |
| 5  | Leather goods       | Zhejiang | 13                 | 0                          | 100%               | /   |
| 6  | Children shoes      | Zhejiang | 15                 | 2                          | 86.7%              | Outsole hardness, shank length limit  |
|    |                     | Shenzhen | 32                 | 4                          | 87.5%              | Removable accessories, pull strength of small parts, heavy metal, formaldehyde  |
|    |                     | Anhui    | 100                | 78                         | 22.0%              | Labeling, formaldehyde, peeling strength, flexing resistance, heavy metals, phthalates  |
|    |                     | Jiangsu  | 70                 | 11                         | 84.3%              | Heavy metals, formaldehyde, abrasion resistance, pull off strength of upper, shank  |
| 7  | Women leather shoes | Zhejiang | 30                 | 5                          | 83.3%              | Labeling, whole shoe flexing resistance   |
| 8  | Travel luggage      | Jiangxi  | 30                 | 21                         | 30.0%              | Pull rod fatigue resistance, travelling durability resistance, rotary drum impact resistance, lock failure                      |
|    |                     | Jilin    | 6                  | 4                          | 33.3%              | Shaking impact, labeling  |
|    |                     | Shenzhen | 25                 | 14                         | 44.0%              | Shaking impact, impact resistance   |
|    |                     | Anhui    | 20                 | 0                          | 100%               | /   |
| 9  | Footwear            | Jilin    | 78                 | 41                         | 47.4%              | Labeling, whole shoe flexing resistance   |
